

Elymus hystrix

Bottlebrush Grass

A lovely grass, with bright green foliage and graceful, pale green, brush-like flowers. Turns a light brown in early fall. Grows well in partial shade: such as in an open woodland. Also known as *Hystrix patula*.

Suggested companions: oaks (*Quercus* sp.), hickories (*Carya* sp.), hop-hornbeam (*Ostrya virginiana*), flowering dogwood (*Cornus florida*), long-awned wood grass (*Brachyelytrum erectum*), wild geranium (*Geranium maculatum*), calico aster (*Aster lateriflorus*), blue-stemmed goldenrod (*Solidago caesia*).
